Art Unit: 1713

This Office action is responsive to the Response/Amendment of October 17, 2006. Claims 1-15 remain pending, with claims 9-15 standing withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made without traverse in the reply filed on March 30, 2006.

Applicants' arguments, see pages 6-8, filed October 17, 2006, with respect to WO '452 (Gabor) have been fully considered and are persuasive. The prior art rejection of claims 1-8 has been withdrawn.

Claims 1-8 are objected to because of the following informalities:

Claim 1 contains the recitation "at least isoolefin monomers" (see line 5), which should be revised to agree with the earlier description of the corresponding repeating units, i.e., "at least one isoolefin monomer" (*cf.*, claim 1, line 3).

Appropriate correction is required.

Claims 1-8 are allowable in substance. The production of polymer(s) by the claimed process which has a Mooney viscosity of at least 25 Mooney-units, a gel content of less than 15 wt% and more than 4.1 mol% of repeating units derived from at least one multiolefin monomer is not taught nor fairly suggested in the available prior art.

Art Unit: 1713

This application is in condition for allowance except for the following formal matters:

Claim objection as detailed above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
